2.

DETAILED ACTION

1. Acknowledgment is made of applicant's claim for priority based on an application filed in Japan PCT/JP97/00126 on 1/22/97. It is noted, however, that applicant has not filed a certified copy of the PCT application. Should applicant desire to obtain the benefit of the foreign document under 35 U.S.C. 119(a)-(d) prior to declaration of an interference, a translation of the foreign application should be submitted under 37 CFR 1.55 in reply to this action.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.
- 4. Claims 26-32 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by O'Brien et al (US 5,756,545). See claims for example.
- 5. Should applicants filed the appropriate documents to gain benefit of the earlier filling date, the above rejection will be obviated and an interference will be declared with the patent US 5,756,545.
